

THE EESI PROFILE

(Our values)

1. The environment is our first client.
2. Our job is our vocation. Our passion is nurturing, repairing and sustainably utilising the landscape.
3. The principles and ethics of scientific method underpin everything we do.
 - a. Primary data is never created, altered or falsely manipulated and all data is reported.
 - b. The rigorous style of communication associated with science is also applied to management and company communications.
 - c. Technical, administrative and managerial skills are recognised equally.
 - d. All staff continually engage in both formal and informal education.
4. We maintain the soul of a small company in the skin of a larger company.
 - a. Work can be fun but quality and safety are central to our business.
 - b. We engage in a caring, direct, apolitical and egalitarian style with respect and honesty in dealings with our clients and each other.
 - c. We are commercial and competitive and actively pursue our vision.
 - d. We are professional but informal.
5. Our profits sustain research and innovation which in turn allows us to attract and retain first class staff and investors.
